

Sukhraj Singh Nandhra

+91-9667706428 — sn699@snu.edu.in — Github — Portfolio

Education

Shiv Nadar Institute of Eminence, Greater Noida

GPA: 9.21

B.Tech in Computer Science Engineering (2023 - 2027)

Dean's List: Monsoon 2023, 2025; Spring 2025, 2026

KIIT World School, New Delhi

Class XII (CBSE): 95.2%

Class X (CBSE): 98.8%

Internships

Hewlett Packard Enterprise — CPP3 Intern

Feb 2026 - July 2026

- Contributed to an always-on security platform for air-gapped HPC clusters by developing the Host Observer to monitor container health, runtime changes, and configuration integrity.
- Built the security event pipeline to collect, process, and forward Docker and Falco security events for centralized threat analysis.
- Implemented the Risk Engine Router to automate security responses, collect forensic evidence, and send alerts based on threat severity.

Hewlett Packard Enterprise — CPP2 Intern

May 2025 - Jan 2026

- Developed the plagiarism detection pipeline to fetch contest submissions, group them by problem and programming language, and automate similarity analysis using the Dolos engine for an online programming contest platform.
- Built Python automation to submit code batches to Dolos, monitor analysis progress, extract similarity scores, and store plagiarism results in the database for instructor review.

Projects

Crux — Local Linux AI Assistant

Github

- Built an offline Linux CLI assistant using retrieval-augmented generation over Linux man pages to answer questions and generate shell commands.
- Developed the retrieval pipeline to search local documentation and generate context-aware responses without internet access or external APIs.
- Designed a command safety pipeline that reviews generated commands before execution and requires user approval for potentially destructive operations.

Palladium — Cross-Source News Intelligence Platform

Palladium

- Built a cross-source news intelligence platform that aggregates articles from 15 international RSS feeds and groups related coverage into real-world events.
- Developed the analysis pipeline to compare publisher coverage using named entity extraction, keyword analysis, summarization, and coverage scoring.

Positions of Responsibility

Shiv Nadar University — Teaching Assistant

Sept 2025 - May 2026

- Supported faculty in conducting lab sessions on Data Structures and DBMS.

Content Team Lead — ACM SNU

Sept 2025 - May 2026

- Led the content team in producing event reports and promotional material for workshops and programming events.
- Coordinated with technical and management teams to plan workshops and coding events.

Technical Skills

Core Subjects: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

Languages: C, C++, Python, SQL

Frameworks/Libraries: FastAPI, Flask, Django, Selenium, Rich, Pybind

Databases: SQLite, MySQL, Supabase

Tools : Linux, Docker, Git, Bash, RAG, GitHub Actions, Falco
